## FEDERAL COMMUNICATIONS COMMISSION

### Notice of Public Information Collections Being Reviewed by the Federal Communications Commission

January 3, 1997.

**SUMMARY:** The Federal Communications Commission, as part of its continuing effort to reduce paperwork burden invites the general public and other Federal agencies to take this opportunity to comment on the following information collection, as required by the Paperwork Reduction Act of 1995, Public Law 104-13. An agency may not conduct or sponsor a

collection of information unless it displays a currently valid control number. No person shall be subject to any penalty for failing to comply with a collection of information subject to the Paperwork Reduction Act (PRA) that does not display a valid control number. Comments are requested concerning (a) whether the proposed collection of information is necessary for the proper performance of the functions of the Commission, including whether the information shall have practical utility; (b) the accuracy of the Commission's burden estimate; (c) ways to enhance the quality, utility, and clarity of the information collected; and (d) ways to minimize the burden of the collection of information on the respondents, including the use of automated collection techniques or other forms of information technology.

**DATES:** Persons wishing to comment on this information collection should submit comments March 14, 1997.

**ADDRESSES:** Direct all comments to Dorothy Conway, Federal Communications Commission, Room 234, 1919 M St., N.W., Washington, DC 20554 or via internet to [dconway@fcc.gov](mailto:dconway@fcc.gov).

**FOR FURTHER INFORMATION CONTACT:** For additional information or copies of the information collections contact Dorothy Conway at 202-418-0217 or via internet at [dconway@fcc.gov](mailto:dconway@fcc.gov).

#### SUPPLEMENTARY INFORMATION:

*OMB Approval Number:* 3060-0580.

*Title:* 47 CFR 76.504 Limits on carriage of vertically integrated programming.

*Type of Review:* Extension of existing collection.

*Respondents:* Business or other for-profit.

*Number of Respondents:* 1,500.

*Estimated Time Per Response:* 15 hours.

*Total Annual Burden:* 22,500 hours.

*Cost to Respondents:* \$7,500. (\$5 per respondent for photocopying and administrative expenses associated with recordkeeping.)

*Needs and Uses:* 47 CFR 76.504 requires cable operators to maintain records regarding the nature and extent of their attributable interests in all video programming services as well as information regarding their carriage of such vertically integrated video programming services on cable systems in which they also have an attributable interest. These records must be maintained in operators' public files for a period of 3 years. The records are to be made available to members of the public, local franchising authorities and the Commission on reasonable notice

and during regular business hours. The records will be reviewed by local franchising authorities and the Commission to monitor compliance with channel occupancy limits in respective local franchise areas.

In 1993, the Commission's initial estimate of the burden of complying with this information collection requirement incorrectly based the number of respondents on the number of community units in the country, instead of the number of cable operators. The number of respondents was thus estimated to be 31,000. Recent publicly available information on hand in the Commission indicates that there are currently 1,468 existing cable operators. To adjust for prospective new market entries, we therefore have used the number 1,500 in our estimate of the number of respondents impacted by this collection.

Federal Communications Commission.
